DETAILED ACTION

The amendment filed on 7/19/2004 has overcome the prior art rejection of the previous office action and claims 1, 6, and 9-14 are allowed.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The claimed invention is an organic EL device, comprising:

- An anode;
- A hole injection/transportation layer disposed over the anode;
- A light emitting layer disposed over the hole injection/transportation layer;
- A cathode disposed over the light emitting layer and separated from the hole injection/transportation layer; and
- A bank having a wall abutting on the edges of the hole injection/transportation layer and the light emitting layer to define film formation regions of the hole injection/transportation layer and the light emitting layer, the bank having a laminated structure with a plurality of layers to form at least a step between the layers, such that the film formation region of the light emitting layer covers the film formation region of the hole injection/transportation layer, the film formation region of the light emitting layer being greater than the film formation region of the hole injection/transportation layer.

The prior art of record does not disclose or suggest either in singly or in combination the following limitations and other elements in the claims:

Reference Tang et al. (US 6,384,529) disclose a uniform film formation and do not disclose the film formation region of the light-emitting layer being greater than the film formation region of the hole injection/transportation layer.

Reference Jones et al. (US 6,069,443) disclose an OLED display having a plurality of organic pixel cell. However, Jones et al. do not disclose the OLED layer 18 comprising the light-emitting layer being greater than the hole injection/transportation layer.

Therefore, the above references do not disclose the claimed invention of present application and claims 1, 6, and 9-14 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Wai-Sing Louie whose telephone number is (571) 272-1709. The examiner can normally be reached on 7:30 AM to 4:00 PM.
